

MindShift GEAR
from thinkTANK

rotation180° Professional 38L

Our flagship pack features an integrated waist pack that rotates out of the lower section to the front of the body, allowing full access to your gear. Our rotation technology gives you rapid access to your gear in muddy, snowy or dusty conditions without taking the pack off.

With four tripod carry solutions, top and back panel access, 3 liter reservoir pocket, daisy chains, compression straps, a gear sling and optional top pocket; the rotation180° Professional offers versatility that no other pack can match. The belt pack, when stowed away, creates a vault that keeps your "life essentials" tucked safely away. It can also be worn separately from the pack, making the rotation180° Professional two bags in one.

KEY FEATURES

- Rotating camera beltpack
- Four ways to carry a tripod
- An optional insert to carry additional photo gear
- Five additional outer pockets for personal gear
- Pocket for a full size hydration reservoir
- Includes rain cover

GEAR PROFILE

Rotating beltpack fits a wide array of camera gear, including a gripped DSLR with up to a 70-200mm f/2.8 lens attached.

The Professional Gear Insert, available separately or as part of the Professional Deluxe version, holds a 70-200mm f/2.8 lens with body attached and several other lenses.

BACKPACK (including belt pack)

rotation180° Horizon 34L

The Horizon's rotating beltpack — which can be worn separately for shorter outings — has enough room for your camera, 10" tablet, binoculars, maps, guidebook, snacks and more. The main pack has extra space for larger gear, including clothing, climbing gear, laptop and more. Daisy chains and ice ax loops provide additional lash points for even more gear. The Horizon truly lives up to its name with a dedicated pocket that fits most 3-liter reservoirs, allowing for longer, more adventurous trips.

Tahoe Blue

KEY FEATURES

- Rotating beltpack for accessing your trail essentials: camera, 10" tablet, binoculars, maps, guidebook, and snacks
- Dedicated zippered hydration compartment fits most 3L reservoirs
- 2 bags in 1: removable beltpack can be worn separately for shorter outings

Charcoal

GEAR PROFILE

Standard DSLR with 16-35mm f/2.8 attached and 24-70mm f/2.8 unattached plus a 10" tablet, binoculars, energy bars, maps, identification book, etc.

Exterior Dimensions:
28 x 22 x 17 cm
Interior Dimensions:
25.5 x 20 x 14 cm

rotation180° Panorama 22L

Tahoe Blue

Charcoal

With its patented rotation180° technology, the Panorama provides one-handed, rapid access to your essential gear. Stay in the moment with no on-and-off again like regular backpacks. Similar to the way hydration reservoirs transformed backpacks a decade ago, the Panorama's rotation technology changes how we use a backpack. Accommodates a 2 liter reservoir.

KEY FEATURES

- Rotation technology allows immediate access to your gear without having to take it off or set it on the ground
- Lightweight design makes this the perfect backpack for a day hike. Its flexible upper section provides plenty of room for a jacket, guidebook or lunch
- Optional gear insert, belt mounted filter case and tripod suspension kit allows for plenty of additional equipment

GEAR PROFILE

Standard sized DSLR with 24-70mm f/2.8 attached OR 16-35mm f/2.8 attached and 24-70mm f/2.8 unattached, plus a 10" tablet

BACKPACK (including belt pack)

25 x 50 x 21 cm
Volume: 38 liters
Weight: 1.3 kg

BELT PACK (only)

Dimensions:
25 x 22 x 13 cm
Volume: 5.5 liters
Weight: 0.4 kg

rotation180° Trail® 16L

Backpack access reinvented—MindShift's patented award-winning rotation technology is available in this smaller, lighter backpack, the rotation180° Trail. The intuitive functionality of the small yet spacious rotation180° Trail keeps the day's necessities organized. In one swift motion, rotate the beltpack component and grab your gear without disrupting your momentum — no on-and-off again like other backpacks. The pack fits a 2-liter hydration reservoir, a light jacket and an extra layer, binoculars, compass, trail books, maps and more. For short excursions, the beltpack can also be worn separately, making the rotation180° Trail two bags in one.

KEY FEATURES

- Rotating beltpack for accessing your trail essentials: compact DSLR or mirrorless camera system, 8" tablet, binoculars, maps, guide book, energy bars, food, and more
- Dedicated zippered hydration compartment fits any 1.5 liter reservoir or a 2 liter hydration reservoir
- 2 bags in 1: Removable beltpack can be worn on its own for traveling light

GEAR PROFILE

Mirrorless body with 28–70mm kit lens attached, 55mm f/1.8 and 8" tablet OR a compact DSLR with 18–55mm kit lens attached, 75–300mm and 8" tablet

Volume: 16 liters
Weight: 1.2 kg

BELT PACK (only)

Dimensions:
23 x 18 x 13 cm
Volume: 4.5 liters
Weight: 0.4 kg

Tahoe Blue

Charcoal

rotation180° Travel Away® 22L

Twilight Blue

Charcoal

MindShift introduces the fastest way to access your gear with the rotation180° Travel Away backpack. In one swift motion, the wearer can rotate the concealed beltpack to the front for instantaneous and secure access to their camera, passport, guidebook, tablet, or other travel essentials. No more stopping to remove a backpack to gain access. Travelers will enjoy peace of mind, knowing that their valuable items are securely stowed away and are inaccessible to others. The backpack also has dedicated pockets to conceal a 15" laptop and 10" tablet, while the beltpack can fit an 8" tablet.

KEY FEATURES

- Rotating beltpack for accessing travel essentials
- Backpack has dedicated pockets to conceal up to a 15" laptop and a 10" tablet
- 2 bags in 1: Removable beltpack can be worn separately for traveling light

GEAR PROFILE

Compact digital camera with pancake lens, 15" laptop, 10" tablet and travel essentials

Volume: 3.5 liters
Weight: 0.3 kg

UltraLight Backpack Series

MindShift introduces UltraLight, the lightest photo daypack series ever. Designed for convenient access to gear and spacious capacity for personal items, all accessible without removing the pack. The UltraLight™ Dual 36L and 25L feature a removable insert, which can be worn as a shoulder bag or beltpack. The UltraLight Sprint camera compartment is integrated into the pack and is not removable. However, all three backpacks include a trap door that converts the bag to a single-compartment daypack.

FEATURES

- Lightest photo daypack with superior construction
- Side-panel provides access to all of your camera gear without taking the bag off and allows you to work out of your bag without getting your harness dirty, wet, muddy or icy
- Removable camera compartment converts to a shoulder bag with included shoulder strap or attaches to your belt for access on the go (UltraLight Dual 36 and Dual 25 only)
- Dedicated compartment for laptop, tablet or hydration reservoir

*Always check with your airline for carry on requirements.

Working in partnership with renowned wildlife photographer Moose Peterson, MindShift designers have updated the original Moose Peterson Photopacks. Initially designed for wildlife and safari photographers, all photographers will find the three-compartment layout protects their gear from the elements. The compartment flaps are built to close automatically, keeping dust and particulates out of your bag and away from your camera sensor. As a workflow solution, the layout provides quick access to up to three camera bodies with lenses attached and at the ready.

KEY FEATURES

- Original 1998 "Moose Ears" design with auto-close compartment flaps protects the interior from dust, spray, wind, etc.
- Three compartment system allows you to keep lenses attached providing the quickest way to access gear
- Tuck-away harness system with removable waistbelt easily allows you to streamline your bag when loading it in a train, plane or automobile (MP-1 & MP-3 only)
- Sized for carry on*, allowing you to get the maximum amount of gear on the plane

Multi-Mount Holster Series

Multi-Mount 30

Multi-Mount 10

Multi-Mount 50

Multi-Mount 20

DESCRIPTION

The Multi-Mount Holster series offers five key mounting configurations: Shoulder, Front, Chest, Pack and Belt. Whether on a quick outing or an overnight trip, this feature-rich bag is ideal for any outdoor enthusiast requiring reliable function and durability. An Elements Barrier™ under the zippered lid shields your camera from sand, dust and other harsh conditions. The unique Multi-Mount Strap System is quickly adjustable and secures the holster in the desired position. The system also includes an attachable, stretch-free neoprene shoulder strap providing next-to-skin comfort and versatility.

KEY FEATURES

- Multi-Mount offers diversity with five key mounting configurations: Shoulder, Chest, Belt, Front Harness, Backpack Storage
- Elements Barrier™ under zipper and included seam-sealed rain cover block unnecessary elements from reaching equipment
- Expandable front pocket for essentials includes organizer pocket, two separate loops for memory card holder and keys, and double sliders (Speedlight flash or tabletop tripod on the 30 and 50 sizes)

ACCESSORIES

Includes shoulder strap, belt, and stabilizer straps

Filter Cases

Filter Hive

Designed to keep your filters safe, organized and easily accessible, the Filter Hive is a must for nature photographers. A zippered pocket keeps small screws in a safe place away from the filters. The removable color-coded accordian stores six, 4" x 6" (100 x 150mm) filters as well as six round filters up to 82mm in diameter.

Dimensions: 20.5 x 13.5 x 10 cm

Weight: 0.3 kg

Filter Hive Mini

The Filter Hive Mini offers quick access and protection for those who do not need the capacity of larger filter cases. Color-coded slots provide organization for 4 square/rectangular filters (up to 4 x 6 or 100 x 150 mm).

Dimensions: 18.5 x 11.5 x 4 cm

Weight: 94 g

Filter Nest

The Filter Nest is two bags in one. Use the padded, zippered pouch to protect delicate filters from dust and scratches in the field, or just use the removable insert for compact packing. The grab-handle with SR buckle enables photographers to hang the Filter Nest from a tripod to suit workflow for rapid filter changes when speed counts.

Dimensions: 20.5 x 11 x 7.5 cm

Weight: 0.2 kg

Filter Nest Mini

The Filter Nest Mini offers protection for those who do not need the capacity of larger filter cases. The compact case fits 4 round filters (up to 82 mm) including a variable ND, and offers color-code slots for greater organization.

Dimensions: 10 x 9 x 4 cm

Weight: 71 g

Lens Switch Case / Contact Sheet

Lens Switch Case

The Switch Case is a lightweight and versatile accessory pouch that can be carried on the belt of MindShift packs. The pouch is perfect for binoculars or gloves, and accommodates most lenses up to and including the 70-200mm. An external zippered pocket holds filters, hand warmers, energy bars, and other small accessories. "Pop down" feature expands to an additional 3" of length.

Retracted:
18 x 11.5 x 8 cm

Extended:
26 x 12.5 x 9 cm
Weight: 0.17 kg

Contact Sheet

With the Contact Sheet on hand, you'll always have a clean place to set up out on the trail or keep the mud and snow off your gear.

Dimensions: 107 X 152 cm
Weight: 0.14 kg

Memory Wallets

House of Cards

This lightweight memory card wallet offers convenient, storage and protection. Offered in our popular Tahoe Blue color, you can quickly find and organize 6 CF and 3 SD cards. The built in business card holder makes for easy identification. Orange colored elastic band offers silent access plus wallet security.

Dimensions: 12 x 7 x 1.3 cm
Weight: 45 g

Card-Again Memory Card Wallet

Keep your Secure Digital (SD) and Compact Flash (CF) cards safe, secure, and all in one place. Sized for today's high capacity cards, these compact card wallets provide convenient access and organization.

CF Card-Again
Capacity: Holds 4 CF or XQD Cards
Dimensions:
11 x 6.3 x 1.3 cm
Weight: 28 g

- Lightweight materials
- Attachment point to tether to a bag or clothing
- Slim design fits in your pocket
- Velcro closure easily lets you get to your cards
- Cut-outs in windows allow you to quickly grab your cards

SD Card-Again
